Welcome to ERGO ARENA,  
the world of great concerts,  
sporting events, congresses,  
fairs and business meetings.

# WELCOME

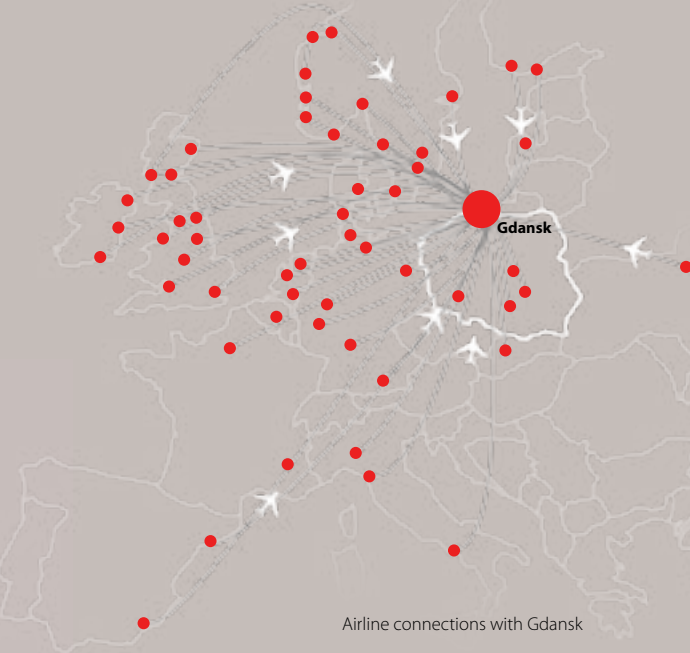

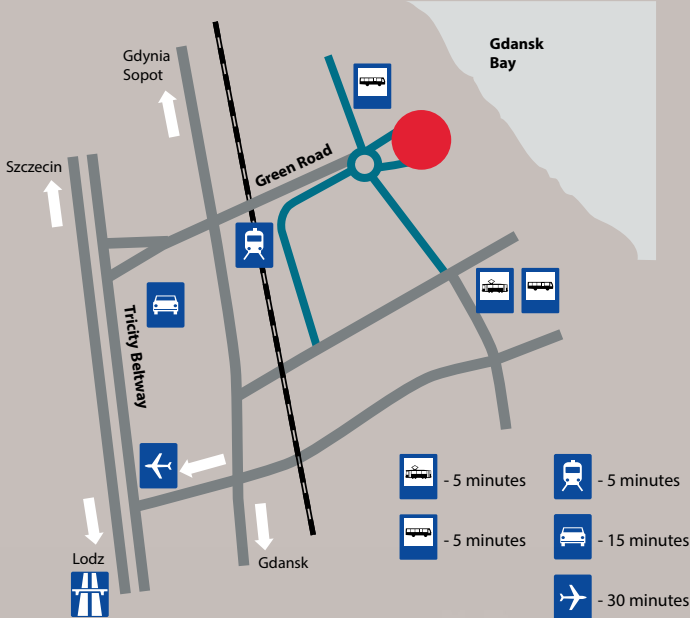

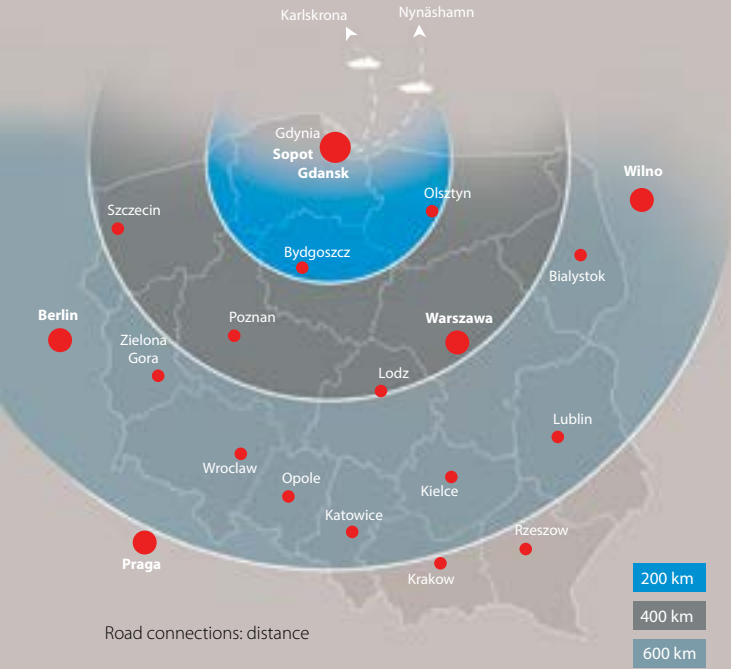

Welcome to the world full of emotions, right in the center  
of **Tricity metropolitan area**, on the coast of the **Baltic Sea**,  
by various beaches and seaside boulevards. Welcome to  
**Your Place of Entertainment!**

**GDANSK** is one of the oldest cities in Poland, once the richest  
and the most populous one. It is Gdansk that is home to the  
St. Mary's Church, the largest brick temple in Europe, it was  
here at Westerplatte that World War 2 broke out, and here, in  
the Gdansk Shipyard, in August 1980 Solidarity, a movement  
that changed the contemporary history of Europe, was born.

**SOPOT** is one of the most beautiful Polish resorts. The  
picturesque spa is inseparably associated with the longest  
wooden pier in Europe, a legendary promenade and its clubs  
vibrant with nightlife. Art Nouveau town houses and villas  
inside the Sopot woods will charm you while the yacht marina  
will fascinate you, no matter if you are a tourist or a sailor.

The Tricity conurbation (around 1 250 000 inhabitants)  
– an economic, tourist, cultural and sports centre of the  
Pomeranian region – has convenient road, rail, airline and ferry  
connections with other parts of Poland and major European  
cities.

Its unique location, many accommodation venues and a wide  
cultural/ culinary offer (opera house, philharmonic orchestra,  
theaters, museums, clubs, pubs and restaurants) make Tricity  
a destination for over 4 million guests annually from Poland  
and abroad.

### HOW TO GET HERE

Gdansk has got direct airline connections with 59 European  
cities, regular ferry connections with Scandinavia and  
convenient road and rail connections.

The venue's location in the very heart of Tricity enables good  
access with public transport – by bus, tram and fast city rail  
(SKM). For drivers we provide a car park with spots for 700 cars  
and 20 coaches.

# HISTORY

The hall's design by the KIPP Projekt Architectural Bureau, created in 2004–06, has received many awards in the architectural industry. The constructional challenges included: reconciling the plans to develop the road network around the building with the necessity to retain a 50 per cent biologically active terrain, budget constraints alongside a wide range of the hall's technical possibilities, and creating appropriate acoustics inside the building.

Especially for this investment the border between Gdansk and Sopot was modified so now it cuts the hall exactly in half. Thanks to this change ERGO ARENA became a common good for both cities.

The building is 30 metres tall and has 4.3 hectares of usable floor space, comprising seven storeys. It is sitting on a monolithic concrete slab, with its roof structure based on four space pylons.

The construction began in 2007 and lasted until May 2010:

- involving over 1 000 workers,
- using over 2 000 tons of steel,
- using nearly 10 000 shoring elements,
- laying over 750 kilometres of wire,
- using over 600 kilometres of reinforced concrete,
- with over 1 000 lorries delivering concrete to the construction site.

The ceremonial opening of the venue took place on 18 August 2010, welcoming over 10 000 spectators to see the friendly opening match between the national teams of Brazil and Poland in men's volleyball. After an emotional duel the game ended with 3-2 for the red and white team. Soon afterwards the hall heard its first bars of classical music. The "Concert for a good start" was attended by 10 000 music lovers.

For years ERGO ARENA has been nominated and awarded in the most prestigious competitions in the industry. In the 12th edition of the "Polish Sport Builder" competition ERGO ARENA won the title "Sports Venue of the Year 2011". The title is awarded by the Polish Sports Infrastructure Club to sports and recreational venues for outstanding architecture, using material, technological and functional solutions. Each year ERGO ARENA gets nominations for the Sport Business Awards. In 2012 ERGO ARENA won the DEMES statuette for the best sports venue in Poland. The Best Quality QI committee awarded the venue in 2013: ERGO ARENA is a laureate of the QI Services – best quality services award. Among QI laureates are companies and institutions in Poland that are leaders in quality management services.

construction

# CONCERTS

Concerts of the greatest stars are always awaited events by ERGO ARENA's guests. World famous names attract crowds and so tickets are sold within the first days of availability.

Thanks to the modern hall, Tricity has become an attractive spot not only on the Polish but also on the European concert map. ERGO ARENA has proudly hosted such stars as Lady Gaga, Sting, Lenny Kravitz, Lionel Richie, Ozzy Osbourne, Andrea Bocelli, Armin van Buuren, or great bands including Rammstein, Iron Maiden, Dave Matthews Band, 30 Seconds to Mars, Roxette, Backstreet Boys and many more.

In ERGO ARENA you can therefore listen to big radio hits but also hear classical pieces and film scores. In the hall's enormous space grand symphonic orchestra concerts activate great energy coming from the audience.

The state-of-the-art sound and lighting management system provides work comfort for the most demanding producers. Reinforced roof construction with a hanging truss facilitates the installation of the most sophisticated sound and lighting systems and other specialist equipment. The hall's construction allows hanging 144 tons of sound and lighting equipment.

In ERGO ARENA we can prepare any show: concerts of the most famous music stars, artistic events, multimedia shows, operas, musicals, shows on ice and many other events. At events like these the number of spectators can reach up to 12 500.

Artists are provided with fully equipped professional wardrobes.

great  
stars

# SHOW CABARETS

Its vast space and tremendous technical possibilities make ERGO ARENA the perfect place for the production of even the most elaborate projects.

ERGO ARENA was one of the first halls in Poland with the technical requirements to allow organizing such artistic shows as the spectacular circus performance by the world famous artists of Cirque du Soleil.

During the amazing shows on ice our youngest guests regularly get to meet their favorite Disney characters. To prepare for the skating revue "Disney on Ice" a 600-square-metre ice rink is installed and set on the venue's main floor for several days. The performances enjoy such warm welcome that additional shows are delivered. Each year about 40 000 people enjoy such shows live in ERGO ARENA.

The best Polish cabaret artists give their performances on stages in ERGO ARENA: Kabaret Moralnego Niepokoju, Neo-Nówka, Paraniernormalni as well as Jerzy Kryszak perform at Polish Cabaret Night in the Gdansk-Sopot venue on a regular basis. The stages of ERGO ARENA have hosted many acclaimed comedic performers including Cezary Pazura, who celebrated his artistic jubilee by inviting the most popular Polish comedians on stage. It was then that a new tradition of signing one of the hall's walls was born. Now, with each event the number of autographs from the star guests of ERGO ARENA is increasing.

Ballet, cabaret, revues, plays. These performances attract whole families and are always filled with wonderful atmosphere.

wonderful  
atmosphere

# SPORT

Sporting events move millions. They stir joy, tears and euphoria. The emotions of an approaching victory cannot be compared with anything else.

The, sung by thousands, national anthem of Poland gives extra power to the Polish athletes who regularly compete on the Gdansk-Sopot boarder.

Such excitement occurred in ERGO ARENA many times, for example during the FIVB men's volleyball finals when the Polish team won the bronze medal for the very first time in the history of this prestigious competition. The week long struggle of the best representatives from all over the world was watched by nearly 100 000 fans. Tickets are also sold out when Polish handball national team plays in ERGO ARENA and so everyone in the venue experiences a true, sporting feast.

Polish volleyball and handball national teams compete in ERGO ARENA on a regular basis. From its very beginning ERGO ARENA hosts different martial arts events – boxing nights, MMA fights as well as motorsports – NIGHT of the JUMPs freestyle motocross World Championships, Super Enduro World Championships or Supercross. The prologue of the 7th edition of the motor rally Lotos Baltic Cup was very emotional for the fans of motor sports during the car chases on the arena's floor.

unique  
emotions

Organising IAAF World Indoor Championship Sopot 2014 was a huge challenge for the venue and its administration. Just for this event a 3 meters tall construction built of scaffoldings on the main floor was installed which allowed hosting the most prestigious track and field competition. Over this event 550 athletes from 134 countries visited Poland. 502 media representatives worked in the venue during the Championship, the event was broadcast in 87 channels. 1 800 hours of TV signal was produced so that 100 000 000 viewers enjoyed the competition watching it.

Our building is unique in the country's standards and allows playing any kind of team sport, martial art events, motor sports such as Freestyle Motocross, ice hockey or even windsurfing. The hall's multifunctionality lets anyone experience those special moments and emotions. During sporting events we provide seats for 11 000 guests.

The main arena is equipped with a professional sports lighting system, two scoreboards in accordance with the requirements of world sport organisations and the largest in Poland central basket with eight LED displays, which allow following the sports reports live.

To the players' disposal is also a full-sized and fully equipped training hall with stands for 300, where both training and matches can take place; a warm-up room, as well as professionally equipped locker rooms with saunas and massage tables.

# TEAMS

**Trefl Gdansk**  
competes in Plusliga,  
one of the toughest  
volleyball leagues  
in the world.

The club was founded in 2005 and since then trains both: professionals and young amateurs from the local sports school and Volleyball Academy Trefl that brings together primary school pupils from Gdansk and Sopot.

Continuously since 2011/2012 Trefl competes in PlusLiga, each year being one step closer to the dreamed-of volleyball top. Strong foundations allowed to set up a team that won the Polish Vice-championship and the Polish Cup in season 2014/2015. Then, in the following season, LOTOS Trefl won the SuperCup and qualified to TOP 12 in the elite CEV Champions League.

It was stated that in the future also club's junior players will play significant roles in club's development. They have already won such prestigious awards as gold and bronze medals of Polish Junior League and silver medals at different age levels.

**Trefl Sopot** was established in 1995 and has become not only a well-known Polish but also European brand.

Trefl Sopot is a five-time Polish Champion and three-time Polish Vice-champion and a winner of six Poland's Cups. Over seasons the team has become internationally recognized. Trefl Sopot qualified twice to the Euroleague Top16 stage (2005, 2007) and took the second spot in the FIBA Champions Cup (2003). The club is proud of various awards won by the junior teams and has coached many national team players at different age levels.

From its very beginning Trefl Sopot is known as the Black and Yellow team. These are the colors of jerseys worn by such European basketball icons as Adam Wójcik, Goran Jagodnik, Darius Maskoliunas, Milan Gurović, Donatas Slanina Adam Waczyński and Filip Dylewicz who returned to Sopot before season 2016/2017.

Ever since Trefl Sopot has started playing in ERGO ARENA the audience ratings of these matches have grown significantly. The team has made a new turn-out record at a single league game not only in basketball, but also in all indoor team sports in Poland. The Tricity derby in ERGO ARENA was watched by over 10 000 spectators.

**our  
teams**

**Wybrzeze Gdansk**  
is a brand itself.

The handball club in Gdansk was rebuilt all over. It took the new owners a few years of hard work to create a club that has again set very high goals. The new history is being written from June 2010 when the handball community in Gdansk decided to reactivate the legendary Wybrzeze.

In a very short period of time about 20 players from the region were signed to compete in the second division. After one season with no single defeat they qualified to the first division.

The best league in Poland was another challenge for the club and its owners and so another players were signed. After 11 years handball players from Gdansk returned to the top competition and perform among the best handball teams in Poland.

5 000 fans attended one game between Vive Tauron Kielce – an undisputed leader in the league – and young Wybrzeze Gdansk team in ERGO ARENA. This number turned out to be a new record at a handball league game in Gdansk.

# FAIRS AND CONFERENCES

Large congresses, conferences, fairs and exhibitions – practically everything can be organized in ERGO ARENA. Any spatial arrangement or hanging of sets and lighting allows creating an exceptionally cosy feeling even in this large building.

ERGO ARENA can host both a congress for a few thousand guests, and a small circle employee training course to finish with a concert or a game. ERGO ARENA offers you the most various possibilities – the venue is ready to implement your most complex plans.

It is great interest that meets every housing fair here, attended by the largest developers in the Pomeranian region. At these events visitors have the opportunity to learn about their products, gain specialist knowledge, as well as make life changing decisions.

The organisers and exhibitors are free to use the gigantic space of the main floor, the training gym, the conference room and other spaces. Our facilities include a technical car park with electric and teletechnical access points as well as the possibility to unload lorries directly onto the main floor of the arena.

An additional asset is our vast warehouse space.

**great infrastructure**

Business is an art and each art requires special setting. Professional support and a reliable partner are the essential ingredients to success.

**VIP lounges**

# **VIP AND BUSINESS**

ERGO ARENA's atmosphere and its close proximity to the sea make it the perfect place to combine business with passion and leisure.

ERGO ARENA gives the possibility to organize corporate events such as congresses with concerts, banquets and training courses. For a smaller number of participants we can mark off a section of the main floor or offer smaller rooms.

ERGO ARENA has got a storey reserved exclusively for the business clients. 47 VIP lounges vary in size from around 20 to 55 square metres, forming a circle on the fourth floor. Depending on its area, each lounge has access to between 9 and 55 seats in the stands, making 948 VIP seats altogether.

The VIP lounges are a unique service in our offer. The exclusive space can be arranged and equipped according to the user's own taste, making it a perfect venue for business meetings

or entertaining guests. It is also a sense of comfort while watching concerts, games and other events.

The lounge lessees have access to catering services by request and VIP areas dedicated to all ERGO ARENA partners. This space is a great forum for establishing new business and social contacts.

Among our clients are both: small and medium enterprises from the region as well as differentiated, international corporations that represent mainly the following sectors:

- banking and insurance • beverage industry
- technologies and IT • energy production • logistics
- manufacturing • shipyard industry • hotel trade and tourism
- sales and distribution • motorized transportation
- construction • media.

# CATERING

Catering is our speciality. We have a large experience in gastronomy, have served thousands of guests and worked with the biggest companies in the region.

## CLASSIC SPORTS PUB IN ERGO ARENA

We offer our guests dishes prepared from the best quality products. The varied menu, a wide selection of beverages, reasonable prices and easy access and availability make it a popular and largely frequented place, not only on the event days. Classic Restaurant's outstanding chef with his experienced staff take good care of our guests and the always welcoming atmosphere. It's a great place to organize your special events.

### In ERGO ARENA we provide comprehensive catering services:

- Catering services in the whole venue during the events, bars and food-courts, rich offer of drinks and snacks.
- Catering in the VIP lounges, VIP bar and VIP areas.
- Catering in the banquet halls and during festive events on the main floor.
- Catering during mass events for over 12 000 guests.
- Catering during congresses and conferences for up to 15 000 guests
- Snacks for organised groups.
- Catering in wardrobes for the artists and their bands.
- Catering for technical support members.
- Organizing outdoor events and barbecues on premises around the venue.

### Moreover:

- Carefully prepared catering is based on individual requests.
- Our professional sales department will choose with you the most suitable offer and give you helpful tips for your ideal event.
- We organize and serve sit-down banquets.

\*\* stands + chairs on the main floor.

Competitiveness in the market and the desire to raise standards have determined the investments that make ERGO ARENA equal to the most modern sports and entertainment venues in Europe.

**Completed investments:**

- **Two additional entrances to the main floor have been created.**  
The number of people who can stay simultaneously on the main floor has increased to 7 000.
- **A new information and advertising-identification system has been created.**  
A 120 m<sup>2</sup> elevation LED display was launched. Inside, around the main floor, a 235,5 meters long, 360 degree LED display was launched as well.
- **Modern stage curtain systems have been installed.**  
We've expanded our offer and so there are more possibilities for the use of main arena. Movable curtains allow you to divide and arrange the surface.
- **Sound system.**  
12 extra subwoofers with amplifiers have been installed.
- **VIP section.**  
The standard of furnishing the entire VIP section, conference and catering rooms on the 4<sup>th</sup> level has been raised.

**75% of the total investment was financed with BGK loan, implemented within the EU JESSICA initiative.**

**ERGO**
